

ABTEILUNG MATERIALPHYSIK

Academic skills development

This is a mandatory course for Advanced Semiconductor Nanotechnologies. Participants acquire knowledge in current research topics by studying available literature and convert that knowledge into an introductory presentation for a scientific audience.

General informations and presentation topics can be found in the following PDF

(https://www.amp.ovgu.de/amp_media/Academic+Skills+Sources/Academic_Skills_2024.pdf) :

ASN Module (mandatory)

**Academic Skills Development
(Scientific Communication)**

**Prof. R. Goldhahn
(Department Material Physics)**

ruediger.goldhahn@ovgu.de

(https://www.amp.ovgu.de/amp_media/Academic+Skills+Sources/Academic_Skills_2024.pdf)

Some articles as basic sources for the presentations can be found in 'Literature'

(<https://www.amp.ovgu.de/amp/de/Lehre/Academic+skills+development/Literature.html>) .
